

The image shows a code editor window with a dark theme. The top menu bar includes File, Edit, Selection, View, Go, Run, Terminal, and Help. The toolbar shows icons for file operations and a search bar containing 'TUTEDUDE PYTHON'. The tab bar at the top displays four open files: 'opencv_practicals.py', 'image.jpg', 'webcam.py', and 'readme.md'. The main editor area shows the following Python code:

```
PYTHON BY TUTEDUDE > ASSIGNMENTS > Assignment 8 > opencv_practicals.py > ...
1  import cv2
2
3  img = cv2.imread("image.jpg")
4
5  if img is None:
6      print("✗ Image not found!")
7      exit()
8
9  # Show image
10 cv2.imshow("original Image", img)
11 cv2.waitKey(0)
12
13 # Resize
14 resized = cv2.resize(img, (300, 300))
15 cv2.imshow("Resized Image", resized)
```

Below the code editor, there is a panel with tabs for 'PROBLEMS', 'OUTPUT', 'DEBUG CONSOLE', 'TERMINAL', and 'PORTS'. The 'OUTPUT' tab is currently selected, showing the text 'Original Image'.

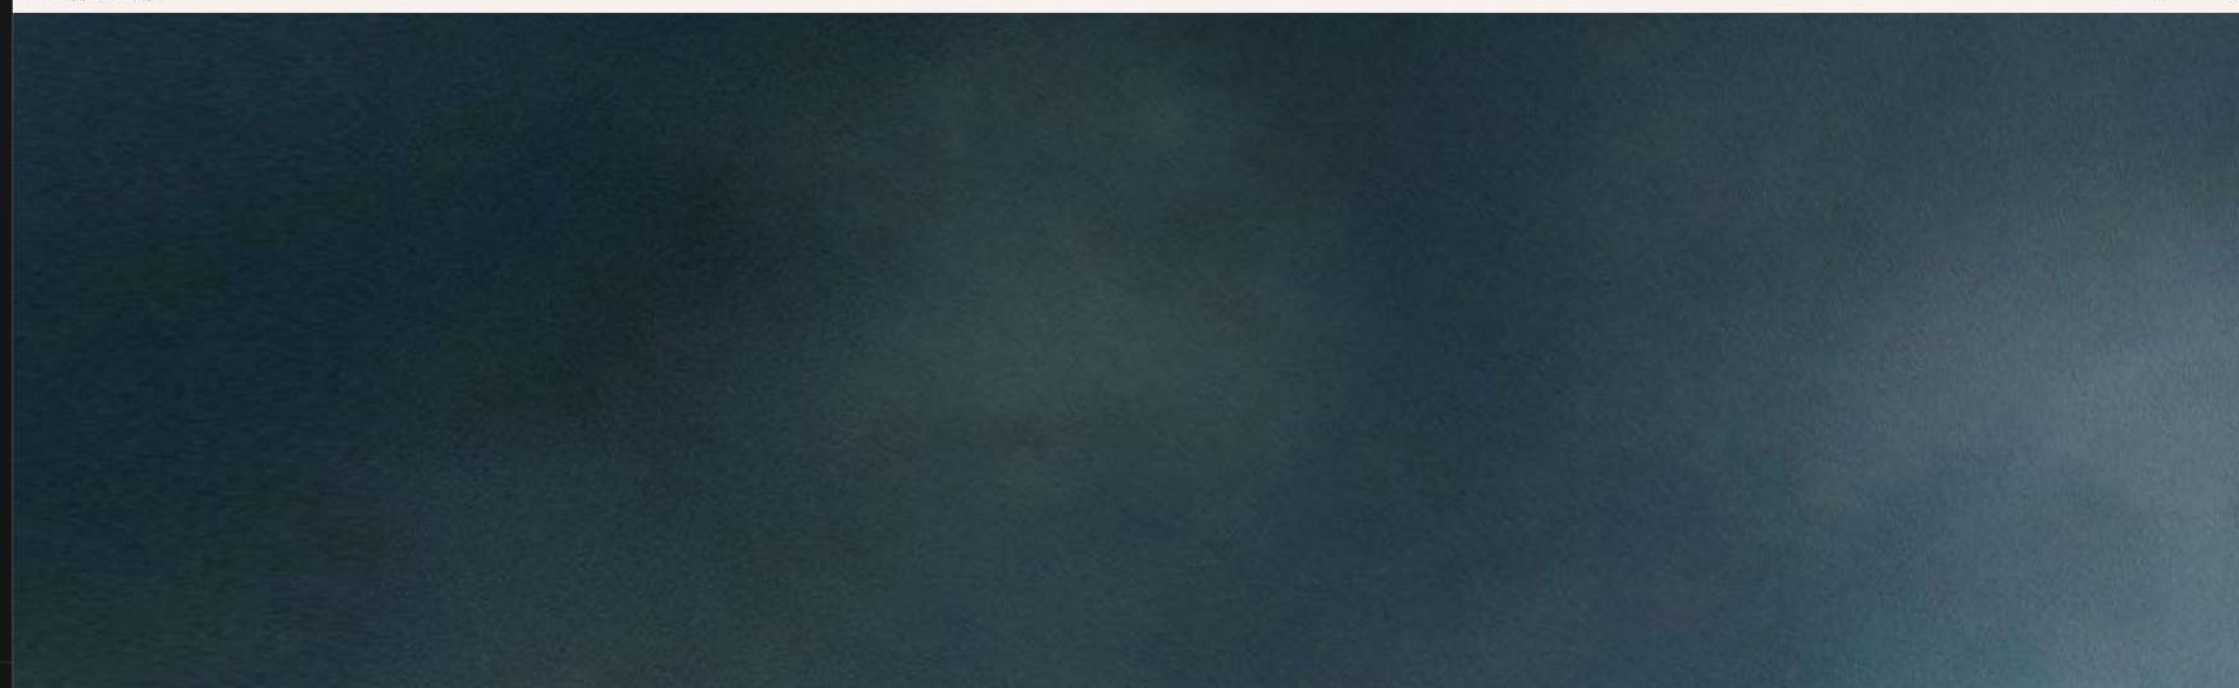

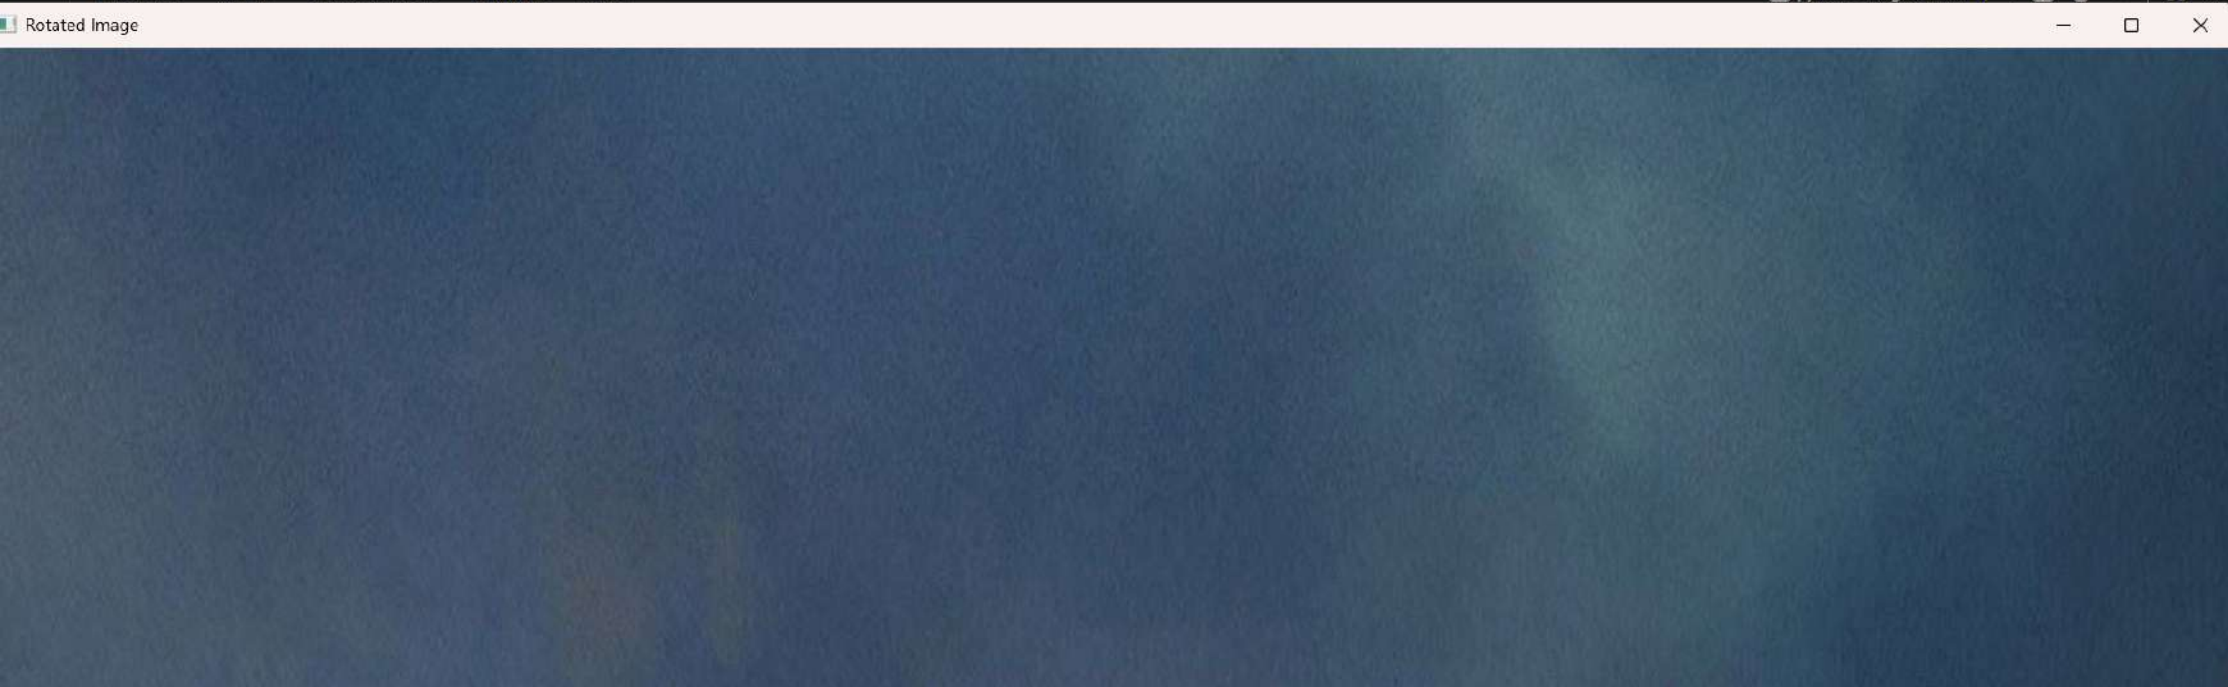

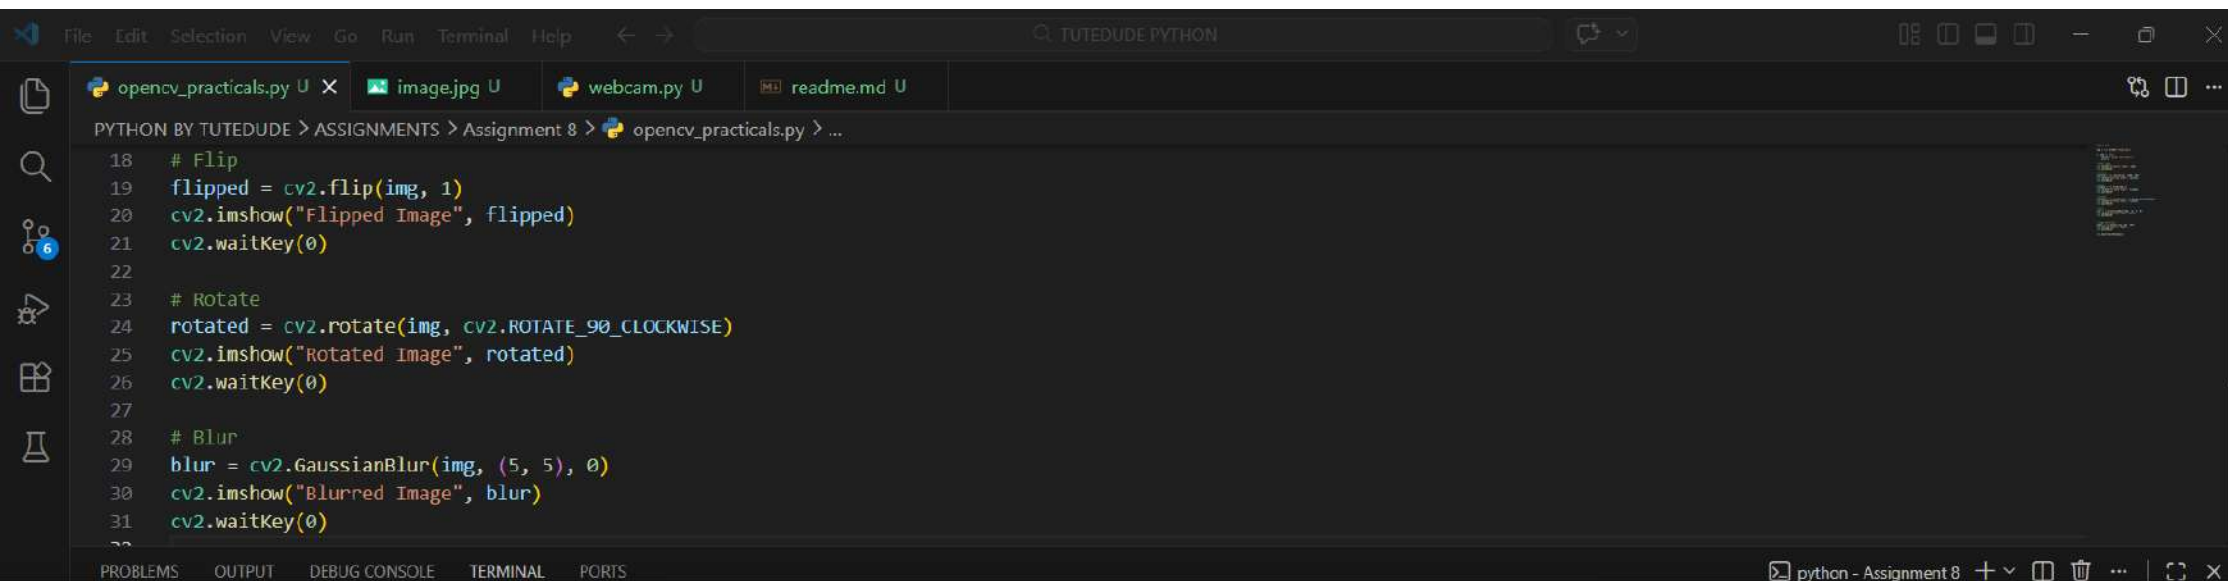

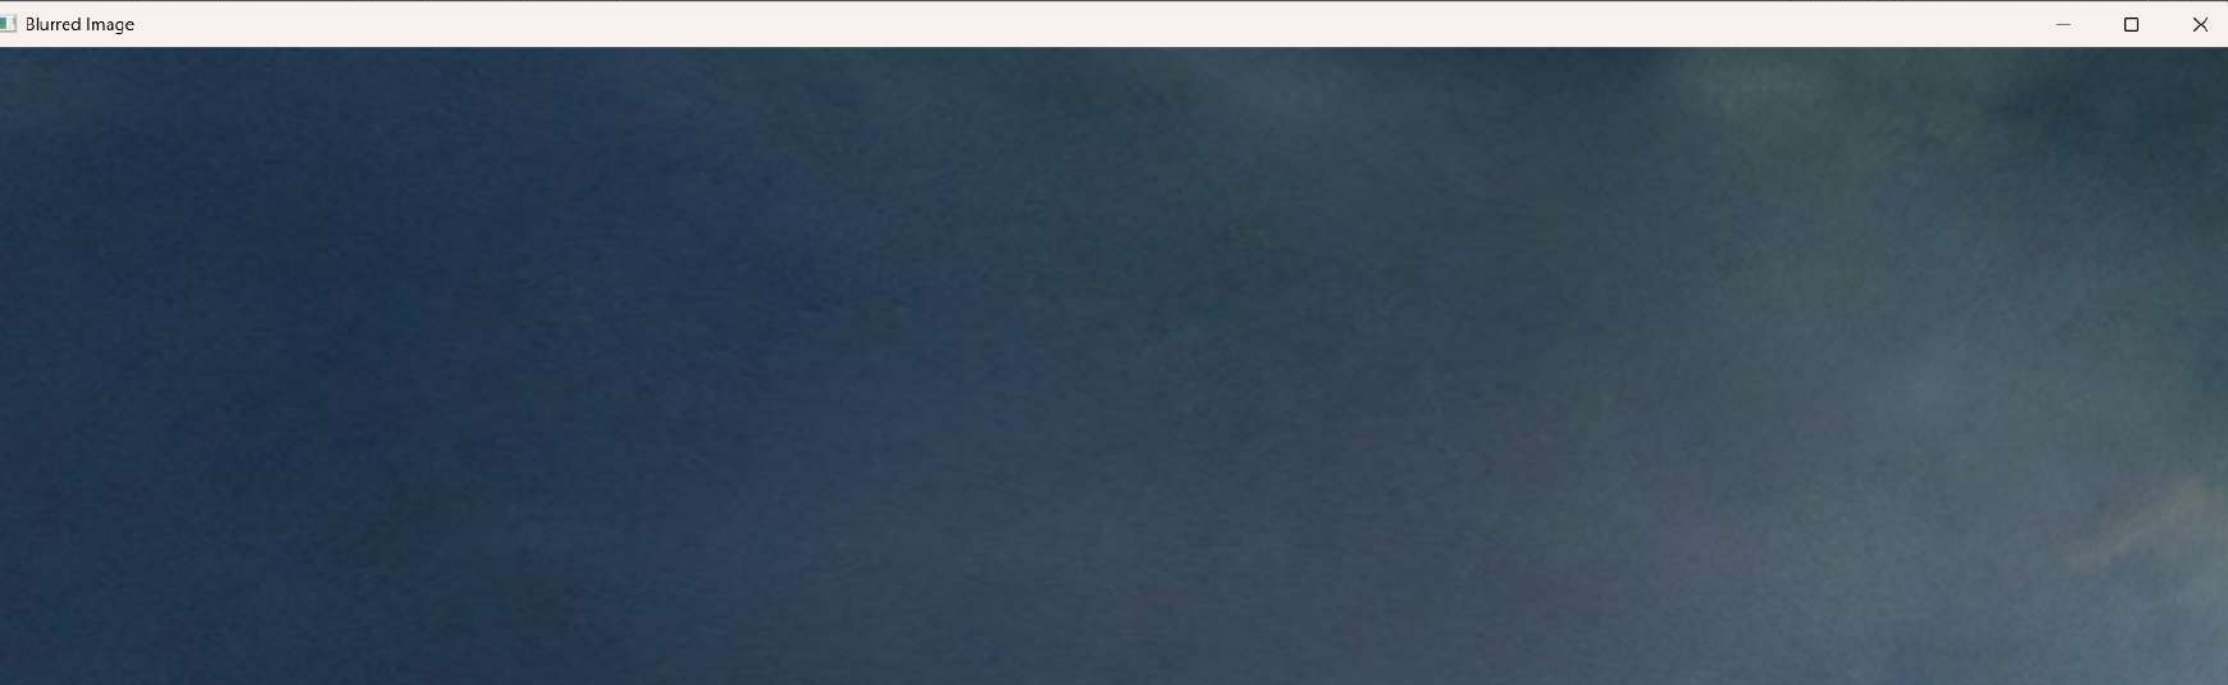

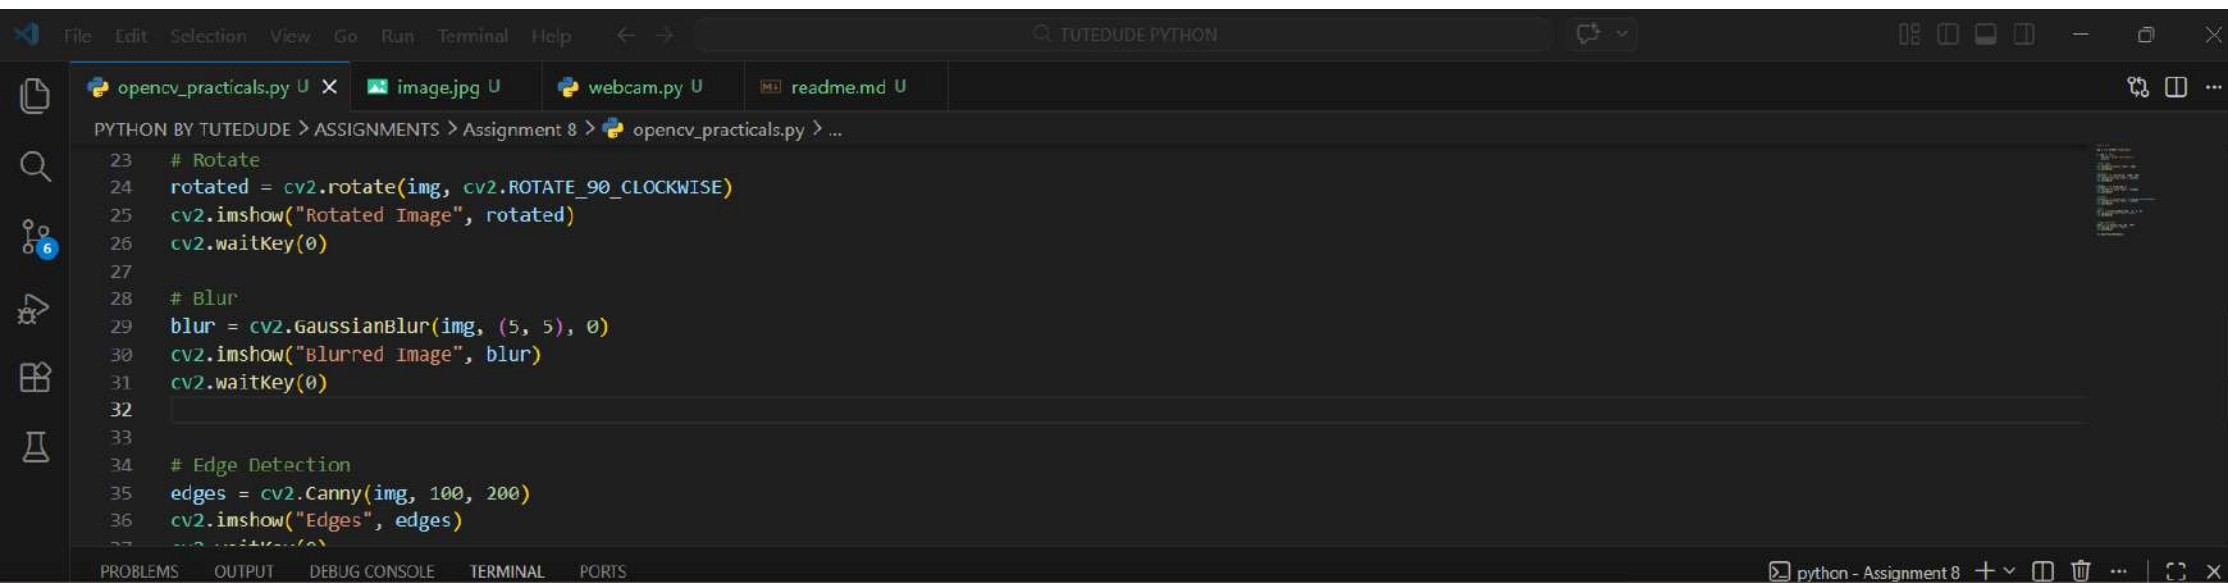

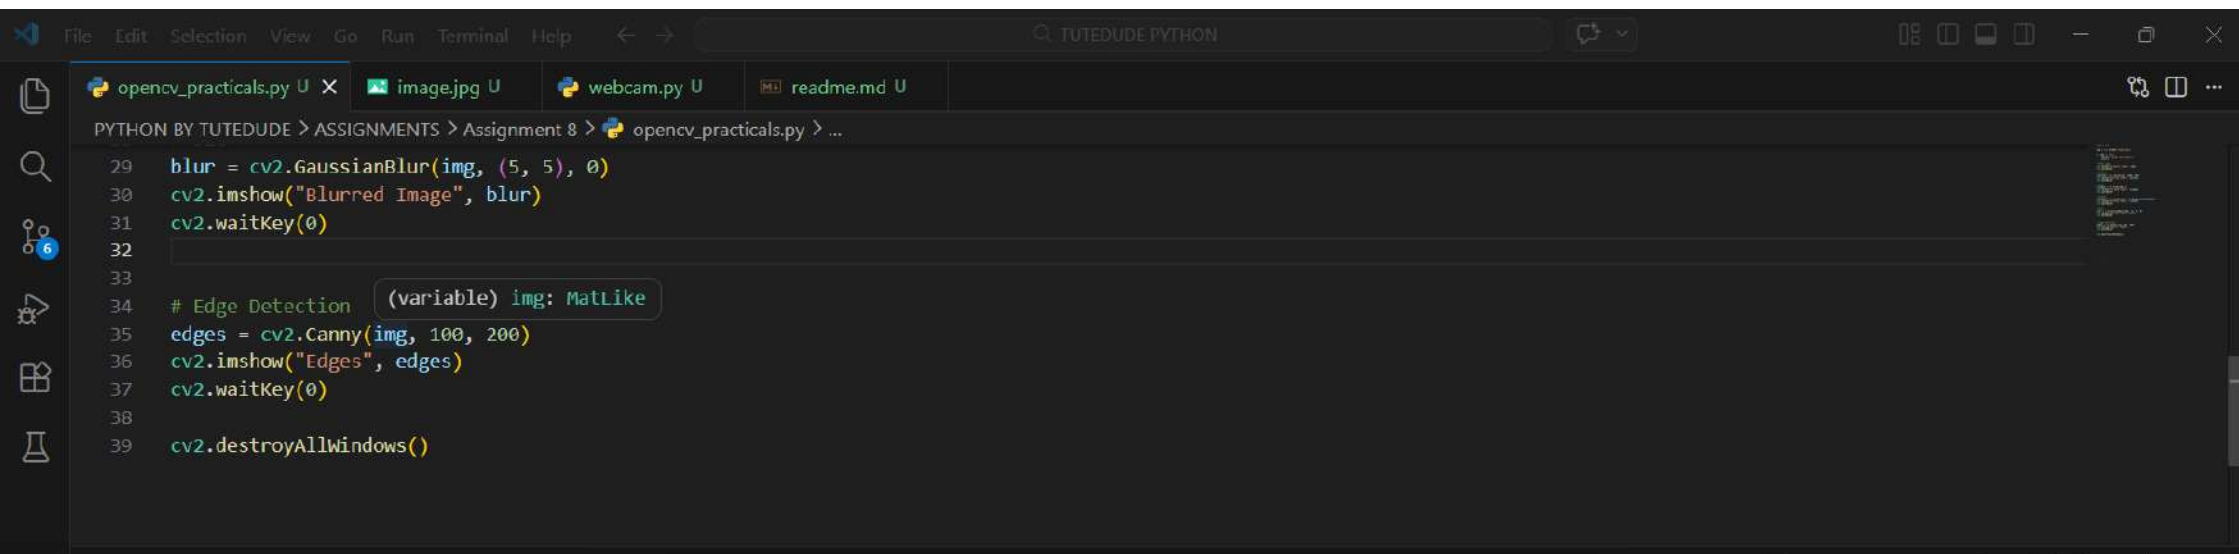

PYTHON BY TUTEDUDE > ASSIGNMENTS > Assignment 8 > opencv_practicals.py > ...

```
13 # Resize
14 resized = cv2.resize(img, (300, 300))
15 cv2.imshow("Resized Image", resized)
16 cv2.waitKey(0)
17
18 # Flip
19 flipped = cv2.flip(img, 1)
20 cv2.imshow("Flipped Image", flipped)
21 cv2.waitKey(0)
22
23 # Rotate
24 rotated = cv2.rotate(img, cv2.ROTATE_90_CLOCKWISE)
25 cv2.imshow("Rotated Image", rotated)
26 cv2.waitKey(0)
```

PYTHON BY TUTEDUDE > ASSIGNMENTS > Assignment 8 > opencv_practicals.py > ...

```

29 blur = cv2.GaussianBlur(img, (5, 5), 0)
30 cv2.imshow("Blurred Image", blur)
31 cv2.waitKey(0)
32
33
34 # Edge Detection
35 edges = cv2.Canny(img, 100, 200)
36 cv2.imshow("Edges", edges)
37 cv2.waitKey(0)
38
39 cv2.destroyAllWindows()

```
